SKILLS

- Flutter, Dart, Riverpod
- React, Next.js, TypeScript
- Node.js, Express, Feathers
- PHP, Python (FastAPI)
- HTML, CSS, Tailwind
- MySQL, MongoDB, PostgreSQL
- AWS, Google Cloud, Firebase
- Docker, CI/CD, REST APIs
- Clean Architecture, SOLID, MVVM
- AI Tools: Claude, Cursor, Gemini
- Git, GitHub, Bitbucket, Jira
- C, C++ (firmware / IoT)
- Scrum, Agile methodologies

SOFT SKILLS

- Adaptability
- Asynchronous Communication
- Collaboration & Teamwork
- Self-Learner
- Continuous Learning
- Technical Leadership

LANGUAGES

Spanish	— Native
English	— B1/B2
Portuguese	— Basic

Software Engineer with **5+ years** building digital products across LATAM. Specialized in mobile development with **Flutter** and full stack applications with **Node.js, TypeScript, and React**. Experience in **Fintech, ERP, and SaaS platforms**. Passionate about clean code, clean architecture, and simplicity as the path to solving real-world problems. *"IN CODE WE TRUST"*.

PROFESSIONAL EXPERIENCE

GiftPoint *Feb. 2026 — Present*

Full Stack Engineer

B2B digital gift cards and corporate incentives platform operating in 11+ LATAM countries.

- **Mobile & Frontend**: development with Flutter and Dart (Flutter Web for the frontend).
- **Backend**: APIs and microservices with Node.js and TypeScript deployed on AWS.
- **Architecture**: autonomous decisions on implementation, refactors and new features, validated with the CTO.
- **Technical reference** within the team, coordinating with product, marketing, and operations.

Stack: Flutter · Dart · Node.js · TypeScript · AWS · Docker · Git

Dycotein Fintech *Mar. 2024 — Jan. 2026*

Full Stack & Multiplatform Mobile Developer

Software for banks, credit unions, and mutual societies under ISO 27001 security standards.

- Started as **Full-Stack** (backend Node/TS + frontend React) on financial-sector transactional platforms.
- After 5 months specialized in **Mobile**, becoming **second-in-command** and technical reference of the Flutter team.
- Designed from scratch the architecture of a complete **personal digital banking app**, from concept to production.
- Led the migration of 3 applications from WebView / React Native to Flutter.

Stack: Flutter · Dart · TypeScript · React Native · REST APIs · Git · Scrum

Acatha Inc. *Oct. 2021 — Feb. 2024*

Software Developer

SaaS platform for ERP, accounting and electronic invoicing for SMBs.

- **Backend**: upgraded the language and framework (PHP) to its latest version; **+25%** in API and microservice response speed.
- **Frontend**: led the migration of the legacy system to React 16+.
- **Analytics & reporting** with the DevExpress component suite.

Stack: React · TypeScript · JavaScript · PHP · MySQL · Git · Scrum

COMMUNITY & VOLUNTEERING

freeCodeCamp — Volunteer Translator *2024 — Present*

Spanish-language translator of educational content, helping make programming resources accessible to the Spanish-speaking community.

Tech Communities (Ecuador)

Actively participate in Ecuador's Google Developer Groups (GDGs) and the Flutter Ecuador community.

Personal project: TruequeApp

Non-profit application promoting sustainable consumption through item exchange and donation; published to production. (Flutter, Dart, Node.js, Firebase, Google Cloud, Riverpod)

EDUCATION

Diploma in Software Architecture *May 2025 — Dec. 2025*
Universidad Autónoma de Chile

Engineer's Degree in Electronics *Jan. 2017 · Cuenca, Ecuador*
Universidad Politécnica Salesiana
